Aircraft Mechanics Fraternal Association Mechanics,

TWU Local 556 stands behind Aircraft Mechanics Fraternal Association (AMFA) 100% in your struggle to achieve a fair contract, especially given the negotiation tactics employed by Southwest Airlines outlined in AMFA’s recent legal filing. As Flight Attendants, we are responsible for the aircraft in the sky and we rely on our AMFA Brothers and Sisters on the ground to ensure our aircraft are operating safely. It is well past time Southwest Airlines recognized their value to this airline.

In Solidarity,

TWU Local 556 Executive Board
